

Current Opportunity: Quality Control Nebulizer Tester (Scientist I)

We have an exciting opportunity for a Quality Control Nebulizer Tester (Scientist I) in our Chippenham, UK office.

The Quality Control Nebulizer Tester (Scientist I) will perform routine testing to support clinical and commercial release of nebuliser medical devices.

The Role

- Testing of assembled nebulisers, comprising:
 - Particle size analysis
 - Dose delivery testing
- End of line testing of nebuliser base units
- Inspection of nebuliser components, comprising:
 - Visual inspection
 - Dimensional checks
 - Electrical testing
 - Performance testing
- Support investigations of issues and complaints related to clinical and commercial supply of nebulisers.
- Involvement in continuous development activities to improve ways of working, labs, equipment, etc.
- Support future QC activities across a range of nebuliser development programs.

Job Descriptions only reflect 80% of a role, and are not an exhaustive list of duties. You are expected to carry out other activities that are within the scope of the role.

The Candidate

Mandatory

- A degree in a scientific discipline, or equivalent practical laboratory experience
- Ability to closely follow work instructions
- Good attention to detail
- Delivery focused
- Good communication skills
- Able to work as part of a team

Desirable

- Experience of working in a QC environment
- Understanding of the application of AQLs to incoming inspection
- Experience of working with medical devices
- Experience of working with nebulisers

At Vectura, our values are fundamental to the way we operate. Our five core values are as follows:

Achievement - We aim to deliver on the challenging goals we set ourselves.

Enthusiasm - We give our best and enjoy what we're doing.

Participation - Success comes from our culture, which fosters creativity and teamwork.

Innovation - We think freely and creatively about our goals.

Trust and Respect - We value people and ideas on their merits.
