

## Current Opportunity: Scientist III

We have an exciting opportunity for a Scientist III in our Chippenham, UK office.

The Scientist III will perform and develop a wide range of experimental procedures, to achieve specific objectives as agreed with line management.

### The Role

- Conduct a wide range of laboratory and/or process activities, applying technical knowledge and competence
- Work within a technical team
- Provide training in scientific skills
- Plan and prioritise work packages
- Conduct analyses on data, including statistical analysis and interpretation
- Lead method and/or process development and validation or supervise batch manufactures
- Involvement in problem solving
- Make a comprehensive record of all work and write high quality reports within area of expertise as necessary
- Play a role in the implementation of initiatives and recommendations to progress work programmes
- Communicate effectively with immediate line manager, colleagues and staff from other departments using a variety of mediums
- Involvement in and promotion of continuous development activities to improve ways of working, labs and equipment
- Develop technical knowledge and competence

*Job Descriptions only reflect 80% of a role, and are not an exhaustive list of duties. You are expected to carry out other activities that are within the scope of the role.*

### The Candidate

- Preferable first degree or equivalent in relevant scientific subject
- Proven experience and competency in relevant area of core expertise
- Previous relevant experience whether from a post graduate qualification, rising through the Vectura system or from another Pharmaceutical environment

At Vectura, our values are fundamental to the way we operate. Our five core values are as follows:

**Achievement** - We aim to deliver on the challenging goals we set ourselves.

**Enthusiasm** - We give our best and enjoy what we're doing.

**Participation** - Success comes from our culture, which fosters creativity and teamwork.

**Innovation** - We think freely and creatively about our goals.

**Trust and Respect** - We value people and ideas on their merits.
