

Current Opportunity: Quality Officer

We have an exciting opportunity for a Quality Officer in our Chippenham, UK office.

The Quality Officer will facilitate the release of medical device components and will be responsible for the maintenance of existing Quality systems.

The Role

- Support release of medical device components for clinical trial and commercial use
- Work with QC inspectors to co-ordinate component inspection activities
- Act as primary contact for internal stakeholders regarding release of medical device component
- Document investigations into non-conforming material in the company non-conformance system
- Generate, review and maintain all relevant GMP/ISO documentation
- Maintain existing Quality systems by completing tasks as assigned by Quality Manager

Job Descriptions only reflect 80% of a role, and are not an exhaustive list of duties. You are expected to carry out other activities that are within the scope of the role.

The Candidate

- Bachelor's degree or equivalent in a scientific discipline
- Experience of working within a Pharmaceutical GMP or Medical Device ISO 13485 environment
- Pharmaceutical/Medical device quality experience preferred

At Vectura, our values are fundamental to the way we operate. Our five core values are as follows:

Achievement - We aim to deliver on the challenging goals we set ourselves.

Enthusiasm - We give our best and enjoy what we're doing.

Participation - Success comes from our culture, which fosters creativity and teamwork.

Innovation - We think freely and creatively about our goals.

Trust and Respect - We value people and ideas on their merits.
