

Vice President Quality and QP

Join Vectura and help us transform people's lives.

If you're a talented Quality professional, with extensive experience of leading quality processes and teams within the Pharmaceutical sector, we'd be keen to hear from you. It goes without saying that you'll also have the drive and ambition to ensure that Vectura is at the forefront of Quality best practice, whilst we continue to focus on our mission to improve the lives of airways disease patients.

In part, we'll achieve this through turning innovation into life-changing solutions which the Quality department will ensure are designed, developed, manufactured and distributed in a continuous state of control and compliance.

Vectura is an extraordinary business with a passion to develop and deliver technologies that improves the lives of people with airways diseases such as asthma. We have cutting edge skills and capabilities across the group and we are doing some innovative and amazing science within the inhalation space.

Reporting to the Executive Vice President - Operations, as Vice President for Quality and you will lead and shape the Quality function and ensure Vectura conforms to its Quality Policy. Your expertise will deliver continuous state of control and compliance for the design, development, manufacture and distribution of safe pharmaceutical products and medical devices.

Your key responsibilities will include accountability for developing Vectura's Quality Management Systems, ensuring they are maintained to highest possible standards and compliant to associated international standards and regulatory requirements. You will lead and manage the quality team across multiple sites, based in UK, Germany, France and Switzerland. You'll be the trusted advisor for quality to the Executive Leadership Team and other key business stakeholders.

To be considered for the role of Vice President for Quality, you will hold a bachelor's degree and be able to demonstrate proven experience in a senior quality management role within the Pharmaceutical industry sector. You will be proven leader and have excellent people management skills. You will be an expert in driving quality systems, possess first class communications skills and have proven trusted advisor status.

In return for your skills and expertise we offer a competitive base salary, bonus and generous benefits package including pension, life assurance, share options/save schemes, private health and dental care.
