

Job summary

Vectura has a new opportunity to join our manufacturing team based in Chippenham. Our business is evolving and we are seeking talented people to support developing and building of our manufacturing capability. This role will give you a great opportunity to develop skills and knowledge in Good Manufacturing Practice (GMP) for combined inhalation products that improve the lives of patients globally.

What you get

In return for your skills and expertise, we offer a competitive base salary, annual bonus and generous benefits package including a pension plan, life assurance, private health, dental plan, share save/incentive schemes, cycle to work scheme and free parking. To find out more or to apply click the 'Apply' button.

Your role

As a Manufacturing Technician your primary responsibility is to support a small and vibrant manufacturing team in developing and delivering Vectura's manufacturing capability. You'll perform manufacturing tasks and activities including (but not limited to) operating manufacturing equipment, completing and maintain relevant documentation and contributing to continuous improvement of manufacturing processes.

What you need

You'll ideally be educated to A' Level standard, or relevant vocational qualification, with a genuine interest in engineering, manufacturing or life sciences. You'll be able to demonstrate excellent communication skills with high attention to detail and IT literate. You'll be a proven team player and also comfortable working unsupervised on assigned tasks and activities.

Vectura will support you in your own personal development, through our in house training capability. Your ability to absorb knowledge and willingness to learn will enable you to build a long and successful manufacturing career within pharmaceuticals and medical devices.

About Vectura

We are a provider of innovative inhaled drug delivery solutions that enable partners to bring their medicines to patients. With differentiated proprietary technology and pharmaceutical development expertise, Vectura is one of the few companies globally with the device, formulation and development capabilities to deliver a broad range of complex inhaled therapies.

We have ten key inhaled and eleven non-inhaled products marketed by partners with global royalty streams, and a diverse partnered portfolio of drugs in clinical development. Our partners include Hikma, Novartis, Sandoz (a division of Novartis AG), Mundipharma, Kyorin, GSK, Bayer, Chiesi, Almirall, and Tianjin KingYork.

Our culture has been created through the participation of our colleagues - a culture that encourages a diverse and inclusive workforce. We offer flexible working opportunities that promote a healthy work life balance. We nurture our people through vocational development, mentoring programmes and career development. You'll find this is an ideal place to develop a stimulating and rewarding career.
