

The image contains three diagrams of a vacuum cleaner, each with a label pointing to a specific part:

- Diagram 1 (Top):** Shows the main body of the vacuum cleaner. Label **A** points to the motor housing. Label **B** points to the dust container lid. Label **C** points to the power cord.
- Diagram 2 (Middle):** Shows the motor housing and the long, flexible suction tube. Label **D** points to the motor housing.
- Diagram 3 (Bottom):** Shows the vacuum cleaner with the motor housing removed, revealing the internal components. Label **E** points to the motor housing.

A Tampa
B Sistema de dosagem do medicamento
C Corpo do nebulizador
D Boquilha
E Unidade da base

A diagram of a digital camera with labels a-f pointing to various components: a points to the viewfinder, b points to the LCD screen, c points to the shutter release, d points to the battery compartment, e points to the battery, and f points to the lens.

The diagram consists of three panels, each showing a cross-section of a water tank with a sensor at the bottom. In the first panel, the sensor is at the bottom of the tank. In the second panel, the sensor is pushed down into the water. In the third panel, the sensor is pulled out of the water.

The diagram consists of three numbered steps illustrating the connection of the power adapter:

- Step 1:** Shows the power adapter (a white rectangular block with a cable) being inserted into the bottom-left port of the device. A black arrow points from the adapter towards the port. To the right of the device is an orange battery icon, indicating the device is not yet powered.
- Step 2:** Shows the power adapter fully inserted into the port. A white cable is now connected to the device. To the right of the device is a green battery icon with the text "4 h" above it, indicating that the device is now powered and has a 4-hour battery life.
- Step 3:** Shows the power adapter being removed from the port. A black arrow points from the adapter away from the port. To the right of the device is a green battery icon, indicating the device remains powered.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.
